## SMC CrossOver Series

The SMC CrossOver Series is currently the only rescue carabiner that meets NFPA G-Rating 1983 (2006) and meets ANSI Z359.1 (2007) strength requirements. We feel that this is the new staple carabiner for all industrial and rescue applications. The CrossOver has been specifically designed to meet all your personal protection requirements with the strong and easy to use Dual or Triple auto locking sleeves allowing for single hand operations while working in mission critical environments.
