

RNR PHANTOM NON-LOCKING

Red

FEATURES

- A multi-functional, lightweight and high strength carabiner, the RNR Phantom features a hot-forge construction which allows us to remove weight where it's not needed and add material to boost strength and durability. The carabiner's narrow, low profile nose and keylock design allow for smooth, snag-free connections. Enhanced Modified D shape provides a large gate opening and a comfortable fit in the hand.
- Material: Aluminum
