VECTOR

EDGE & LOAD MANAGEMENT SYSTEM

The Vector Edge and Load Management System has been designed and engineered as a light-weight, portable tool for use in industrial, mountain and urban rescue environments. When combined with high strength - low stretch cord, quality life-safety rope, lightweight pulleys and carabiners, the Vector provides rescuers with a versatile resource which can reduce risk and go virtually anywhere.

This innovative monopod system is the result of a collaboration between SMC and our expert training partners. This combination of SMC's 50 years of experience in design, testing and manufacturing of technical rescue equipment and our partners' experience in training advanced rescue techniques throughout the world has created a 3lb. solution to challenging edge transition scenarios.

| MODEL NUMBER | PRICING | |
|----------------------|---------|-------|
| 290010 Vector Kit | MSRP: | \$450 |

| PRODUCT SPECIFICATIONS: | |
|-------------------------|---|
| Material: | Aerospace-grade Aluminum |
| Length: | 37.74" (963mm) |
| Diameter: | Tube: 2" (51mm) Rigging Plate: 4.56" (116mm) |
| Weight: | 3.04 lbs (1380g) |

SMC is a mountaineering and technical rescue brand that produces equipment for elite rescuers and mountaineers. SMC designs and manufactures our sport and rescue hardware to aircraft industry standards while remaining true to a heritage of excellence and innovation. Seasoned climbers and rescue personnel depend on the reliable performance of SMC gear in the most critical situations and demanding conditions around the globe.
